

Reading List

OOPS PROJECT

Neha Radharapu 2K18/EC/110
Sidharth 2K18/MC/114

The background of the slide is a solid dark blue. On the left side, there is a decorative graphic consisting of light blue lines that resemble a circuit board or a stylized city skyline. These lines are vertical and horizontal, with some ending in small circles. The lines vary in height and are scattered across the left half of the slide.

Introduction

Reading List project is for all book lovers to keep track of the books they have read and to store it in a file to view in future.

We used the help of file handling and OOPS to execute this project.

01

Create Book

This function will let us create a book including the name of the book, author name, genre and rating
